

Open PhD Positions

There are 3 PhD positions available in our TUBITAK 2244- Industrial PhD Project on “Valorization of Waste Electric Electronics” which will be carried out in collaboration with Akademi Çevre Entegre Atık A.Ş.. PhD scholars must enroll to our PhD program in Environmental Engineering. PhD scholars will be funded for 48 months with a stipend of 4500 TL/month. PhD scholars will spend most of their time in the partner industrial company during their PhD study, and if the company offers a position they will continue working in the company after their graduation.

The language of the PhD program in the Department of Environmental Engineering is English and the graduate program applications will start on September 28th, 2020.

For more details about the positions, please contact Asst. Prof. Yusuf Çağatay Erşan (yusufersan@hacettepe.edu.tr) and Assoc. Prof. Selim Sanin (sanin@hacettepe.edu.tr).
